

IN GULET ALONG THE AMALFI COAST

Travel by boat as you vacation outdoors: enjoy a double discovery of the sea and land

Here is a new perspective on Italian landscapes. It is ideal for travelers who want to enjoy a lovely panorama while being active among the perfumes and flavors of the Mediterranean; this trip is perfect for all ages. Here is Sailinggreen, a new brand created by a collaboration between **Verde Natura** and **GH Impresa Turistica**.

Sailinggreen

This is a new way of traveling between water and solid land: enjoy the breathtaking **Amalfi** and **Sorrentine Coasts** as you view them from the sea, immerse yourself in an exploration of the little roads on the islands of the **Gulf of Naples**; Ischia, Procida and Capri. This panorama isn't just a pretty picture: it's a world in which you can move freely. To this end, along with offering traditional cruises and charters, two tour operators from Emilia Romagna have teamed up to create an alternative: a new idea for travelers who love to arrive in the heart of the nature.

In the seat of your touring bike, you can explore some of the area's best pathways thanks to the experience and passion of Verde Natura's guides. For more than 20 years they have been creating itineraries for hiking and cycle tourism throughout Italy and Europe.

GH Impresa Turistica proposes a new world for dreamers: not just Sorrento, Amalfi, Ravello and Vietri, but also lesser known Mediterranean pearls such as the magical towns of Minori and Maiori.

Between one wave and another, guests can enjoy an interesting culinary experience inspired by ancient ships' recipes, relaxing dips in the sea, and sports: biking and mountain biking, hiking, Nordic walking, excursions and walks.

Bike + boat

It's not necessary to be a professional athlete to enjoy a **bike+boat holiday**; we propose medium/easy bike paths which you can complete at a relaxing, pleasurable pace, taking all the time necessary to enjoy the view.

You begin in Castellammare di Stabia in order to pass through all of the stunning areas in this unique part of the world: the **Amalfi Coast**, a winding path of 42 km that pass through the Monti Lattari, a paradise melding history, art, nature and mythology.

A UNESCO heritage site, this is a place that has inspired poets, musicians and writers over the past centuries. From the sea, the view is even more breathtaking: witness the incredible mixture of colors, from the turquoise sea to the golden lemons growing along the green terraced hillsides.

The bike+boat tour offers:

The islands of the Gulf of Naples are some of Italy's most beautiful spots. Enjoy the colorful alleyways and uncontaminated, relaxing environment on the volcanic island of **Procida**.

Visit **Ischia**, called the "green island" for its lush vegetation, with its thermal springs and the beauty that inspired Neruda,

Stendhal, Verga, Flaiano and Nietzsche.

Come to **Capri** to see the Grotta Azzurra (Blue Cave), and revel in the island's general historical, social and natural importance. Base your trip around swimming and romantic outdoor dinners.

The outdoor museum of **Pompei** and the Villa dei Misteri.

The ancient magic of **Ravello**, with its sumptuous 11th century Duomo and the stupendous Arab-Sicel Villa Rufolo. Each summer, the Villa's garden - featuring linden and cypress trees and flowering cascades - hosts the Ravello Festival: a symphonic musical event dedicated to Richard Wagner, who found inspiration here.

Then there's **Amalfi**, a celebration of Arab and Roman architecture. Don't miss the cathedral (Duomo), which dominates the main square and, inside, features the Chiostro del Paradiso, a genuine relic of the East hidden in Southern Italy.

Stop by **Maiori**, **Minori** and **Cetrara**, small cliffhanging villages overlooking the sea, where the atmosphere of the olden days is still intact.

Don't miss a landing in **Naples**, the captivating siren city that sparkles with contradictions.

Travel by gulet

This is a comfortable, spacious vessel with elegant lines: it is constructed entirely of wood, according to shipbuilding traditions in the workshops of Bodrum, Turkey. The **Altinlar gulet** (caique boat) is 24 meters long and can host up to 12 guests. Fully refurbished in 2007, it offers 6 welcoming cabins with private bathrooms. On board it is best to travel with the essentials: there isn't space for large suitcases. Instead, there's just enough room for light, comfortable clothes, a small backpack for excursions, sunscreen to protect you from the strong Southern sun, a camera to immortalize the most unforgettable moments and of course, a bathing suit!

The ample common spaces, ideal for sunbathing, guarantee a maximum degree of movement and a relaxed, fun time, even for families with active children! A holiday in gulet is an ideal choice for anyone

who seeks a sociable, friendly experience.

On the covered deck, guests can enjoy dinners between the stars and the sea, enjoying the Chef's cooking based on daily fresh fish, a staple here. It will be accompanied by pasta, meat, cheeses, and seasonal vegetables, a cuisine that is bursting with the aromas and flavors of this Mediterranean landscape.

After dinner you can enjoy the breathtaking view of the lights of the Gulf, or take a stroll on land in a hospitable climate.

And for guests who prefer to immerse themselves in nature and art by foot? There is always the possibility to stay on board, choosing a traditional cruise, or to rent the entire craft for a family or group of friends. Our staff, which speaks various languages, is always available to help you.
